

Abdullah Korra

BS in Math-Physics | Scientific Computing, Astronomy, and Robotics
Caldwell, Idaho | YOUR_EMAIL@example.com | github.com/YOUR-USERNAME

Profile

- Math-Physics student with experience in Python, astronomy software, robotics, and reproducible analysis.
- Interested in machine learning, scientific computing, and computational modeling.

Education

- The College of Idaho - BS in Math-Physics, expected May 2026

Selected Experience

- Astronomy research involving spectroscopy and data reduction workflows.
- Built or contributed to a Jupyter-based KOSMOS multi-slit data reduction pipeline.
- Designed an affordable agricultural robotics concept using Raspberry Pi and Arduino.

Technical Skills

- Python, pandas, NumPy, scikit-learn, Jupyter, Quarto, Git
- Regression, classification, cross-validation, ROC-AUC, RMSE
- Arduino, Raspberry Pi, scientific computing, Fusion 360
